RESIDENTIAL REVIEW

BSL TIME

On Monday, staff organised a BSL half hour get-together. The team is intending to run these discussions weekly. It will be a signed only discussion on various topics. There are several aims for this, including confidence and relationship building. It also gives new staff a chance to develop their BSL skills.

The group talked about their weekend.

CONVERSATIONS

On Thursdays we offer a talk about current topics and awareness days. Recent discussions have been about International Day of Persons with Disabilities and Human Rights Day. These discussions usually generate interesting debates and are enjoyed by the students who take part.

STAFF NEWS

Mick, who has worked for residence for over 10 years, has started a level 3 counselling course - we wish him well with this.

WHISK IT WEDNESDAYS

Wednesday is our baking day. A chance to learn new skills, socialise and, of course, produce nice food !

FOOD IN DARLEY

We try to maintain a balanced menu; the meals are driven by the students' input. Dietary needs are catered for, whether medical or by choice.

RECENT ACTIVITIES

The group loved a Christmassy trip to Brigg garden centre for a look around and some tasty treats. Alistair bought himself a Christmas jumper.

A visit to the cinema to watch Wicked produced several critiques. Noah and Sophie enjoyed it and gifted us with their renditions of the songs. However, one person slept through the film !
